

As wool experts since 1888, we create products that offer more than just performance. We're on a journey to use wool as a force for positive change. Through innovation and holistic frameworks, we drive a positive impact in the field by creating market-leading products sourced from verified traceable wool, through our fair price assurance programme, The Woolkeepers®

Standard Product: Nonwoven layers

Applications: Outerwear, outdoors, sleeping bags, apparel, accessories

HD® Wool Pure | Certified traceable natural wool fibres are hand selected and processed mechanically to create a systematised and resilient insulation of varying weights.

Grown in the UK, created within 50miles, built for brands who design with regeneration and circularity in mind.

Features:

- 100% pure biodegradeable wool
- Natural and renewable
- Thermo-regulating
- Breathable
- Odor inhibiting, anti-bacterial
- 3rd party verified traceable wool
- Non-mulesed

Care Instructions:

- Dry clean only
- Do not iron

Due to manufacture processes and natural fibre content other properties may vary.
